QUESTIONS ON THE NEW TUFMAN OBSERVER MODULE (TUBS)

We will be making available a new component of TUFMAN to enter the detailed observer data collection at the national level in late 2009. The following questions are designed to give us some feedback on the expected use (or not) of this system in each country.

Do you intend to use the new TUBS system at some stage in the future ?	
How many observer trips are conducted in your country per year ?	
Do you have adequate resources (database technical and data entry staff) to enter and manage observer data in TUBS ? Elaborate where possible. (for example, on average, 1.5-2 days is required to enter one purse seine trip)	

Complete the questions required for each TUFMAN component

TUFMAN COMPONENT	Indicate whether (i) This component is used in your office, or (ii) you intend to use it in the future, or (iii) you will never be using it...	Is it Effective / Helpful in regards to your work ? (rate in the scale 1-10)	More training required ?	More enhancements / features required ?	Comments

Guidelines for completing this survey

Effective / Helpful ?	Rate this component according to how much you and your colleagues rely on this component for your work. The rating should also consider whether it satisfies your requirements, that is, you get what you want from this component. Specific problems with this component can be listed in the COMMENTS column.
More training ?	Indicate whether more training is required and if possible, specify exactly the areas where training should concentrate on in the COMMENTS column.
More enhancements/features ?	Indicate whether more enhancements / features are required in this TUFMAN component and, if possible, specify exactly what enhancements you would like to see in the COMMENTS column.
Comments	Add any other information can be added to the COMMENTS.
