Incidents by observers requiring disciplinary action

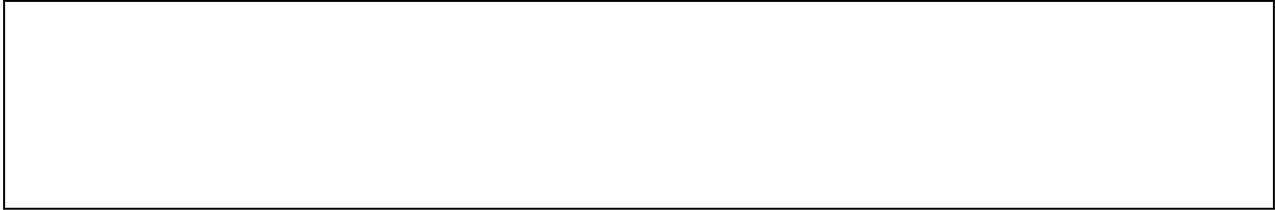

An Observer was absent from work without notify the programme coordinator and not submit his trip report. Few attempts were done and chances were given but no respond.

Also an observer, after returning from a purse seiner trip did not hand in his report within the given two week's period. He was then informed that he will not be participating in any ROP trips until he had met certain in house requirements,

Result of disciplinary action

Terminated by the management

The Observer has had time to reflect and better himself in terms of certification and is now more aware that the Fiji ROP Program is a serious one and any form of lackadaisical will not be entertained. An added ripple effect of the fellow members of the Fiji ROP Program coming to the same realization is now resulting in a more efficient ROP Program.
