

Artisanal Tuna Data Workshop – Data Management Session

Group exercise – Future national requirements for TUF-ART database system

In your GROUP, please discuss what each of you think is the important work that needs to be done to TUF-ART Database system.

Please consider what might be required, not only by yourself for your work, but also

- what reports your SENIOR MANAGERS might want to see, and**
- what reports or summarised information the FISHERS might want to see when you give them feedback.**

Make a detailed list of the following which will be presented in plenary and a combined list produced as a recommendation from the workshop.

- 1. In general, what new features or updates to TUF-ART database system would you like to see (excluding REPORTS) ? (include the priority – HIGH, MEDIUM and LOW)**

- 2. What new TUF-ART REPORTS database system would you like to have added to the system ? (include the priority – HIGH, MEDIUM and LOW)**
