**FISHING ACTIVITY CODES**
1. Normal
2. No Survey
3. Industrial Vessel Unloading
4. Adverse Weather
5. Community Fishing Event
6. Community Obligations (Not-Fishing)
7. No Fuel
8. Sunday
9. Competition Day
10. Other - pls specify
Landing Site:

Record the name of the landing site as agreed in your national sampling design document.

Recorder - name or code:

Record the name of the person recording the information or use the 3-letter field staff code which can be provided by SPC.

Start time:

Record the time you arrived at the landing site to carry out the vessel fishing activity count.

End time:

Record the time you left the landing site and stopped counting vessel activity.

Date:

Record the date the vessel fishing activity count was recorded (month, day).

Year:

Record the year using a four-digit format (YYYY).

Country Code:

Record the country code using the ISO 3166-1 standard for country codes.

Landing Site:

Record the name of the landing site as agreed in your national sampling design document.

Recorder - name or code:

Record the name of the person recording the information or use the 3-letter field staff code which can be provided by SPC.

Start time:

Record the time you arrived at the landing site to carry out the vessel fishing activity count.

End time:

Record the time you left the landing site and stopped counting vessel activity.

Fishing Activity Code:

Samplers should describe the nature of the vessel activity every day of the year, even on days when no survey is undertaken. How this can be achieved should be described under the national sampling design document.

1 - Normal day

6 - Community Obligations - Not Fishing

2 - No Survey

7 - No fuel

3 - Industrial vessel unloading

8 - Sunday

4 - Adverse Weather

9 - Competition Day

5 - Community Fishing Event

10 - Other pls specify

Remember - It can happen that there will be no vessels fishing on normal day, most especially at landing sites with only a few vessels. This should not be recorded as a normal day. Record fishing code 1 and zero under the vessel activity count.
