**OBSERVATIONS / COMMENTS / OTHER GEAR / UNUSUAL USE OF GEAR**  
(write brief notes here and a full description in trip report)

**USAGE CODES**

- ALL** - used all the time in fishing
- TRA** - used only in transit
- OIF** - used often in fishing
- SIF** - used sometimes in fishing
- RAR** - rarely used
- BRO** - broken now but used normally
- NOL** - no longer ever used
- OTH** - other please specify

**N.B.** - fishing can be searching, setting, retrieving, deploying, investigating, etc.

# GENERAL INFORMATION

Notes on FORM PS-1 (pg 1)

REV. 2018

**N.B.: Wherever there is a Y / N (yes or no) option for an item, either the "Y" or the "N" must be circled**

**A complete fishing trip is defined as 'from one full or partial unloading to the next full /partial unloading'.**  
If not a complete fishing trip explain reasons why in trip report - also see "*Partial trips*" below.

TRIP DETAILS	
<b>NAME and NATIONALITY</b>	First and family names must be in full and in correct order (e.g. "John Masa" not "Masa, John"). Nationality as passport.
<b>TRIP ID NO.</b>	Print number issued by the authority sending you on this trip. (E.g.: John H. Masa, on his third trip in 1996 might be issued Trip ID Number: "JHM 96-03").
<b>OBSERVER</b>	<b>TRIP START (SHIP'S DATE and TIME)</b> } Print date using "year/year / month month / day day" format. <span style="float: right;">USE SHIP'S TIME (and DATE)</span>
	<b>TRIP END (SHIP'S DATE and TIME)</b> } Print time using 24 hour "hour hour : minute minute" format. (e.g. Five past one on the afternoon on 3rd of January, 1996 as "96/01/03 - 13:05").
<b>TRIP START LOCATION / TRIP END LOCATION / VESSEL DEPARTURE PORT:</b>	Record in all three boxes even if the same port. N.B.:Observer trip officially starts and ends only when the vessel on which the catch is actually observed is boarded and disembarked. If boat met at sea "Trip Start Date and Time" is day of transfer from transit vessel to observed boat. "Trip Start Location" is "At sea". If transferred off host vessel to another to return to port "Trip End Date and Time" is day of transfer. Trip End Location is "At sea". In each case 'at sea' should be followed by a position in degrees and minutes (dd <sup>0</sup> mm') only. <b>Partial trips</b> - If observing catch on 2 (or more) boats, each new observed boat must be a new trip with separate observer trip ID No. and new forms. <b>Multiple trips</b>
<b>VESSEL NAME</b>	Full name with no abbreviations. (The name "Captain Paul John Smith" should not be abbreviated to Capt. P.J. Smith.)
<b>FISHING PERMIT / LICENSE NUMBERS</b>	Record all numbers of current fishing licenses on board. This may include more than one license. There should be at least one on board if the vessel fishes in any EEZ waters. Note country the license comes from in brackets alongside number. E.g.: K3453789H (Kiribati).
VESSEL CHARACTERISTICS	
<b>VESSEL OWNER COUNTRY REGISTRATION NUMBER VESSEL FLAG</b>	Name of Company or Person who owns the vessel. This should be in the Registration Papers. Number given by the Country (Flag State) to where the vessel is registered. This can be found in the registration papers of the vessel. Do not confuse this with FFA Regional Registration Number. Country where vessel is registered. E.g.: Japanese purse seiners are usually registered in Japan so their Flag State is Japan.
<b>IRCS (international radio call)</b>	Series of numbers and letters painted on the side of the boat, must be either in black lettering on a white background or white on black.
<b>UVI - Unique Vessel Identifier</b>	WCPFC requires all vessels over 100 Gross Tonnage to have a UVI after 1st Jan 2016. Generally the UVI is the International Marine Organisation number or may be the Lloyd's Register (LR) no.
<b>NO OF SPEED BOATS</b>	Number of speed boats. Don't count tow boats, or a boat that looks like a speed boat but is only used as a tow boat.
<b>NO OF AUXILIARY BOATS</b>	Count only the tow boats and light boats that the vessel keeps <b>onboard</b> . Don't count a speed boat if it is already counted.
<b>Do OTHER TENDER BOATS WORK with CATCHER ?</b>	Boats (ranger boats, light boats, reefers, etc.) not carried on board but work with the catcher boat as a regular part of the fishing strategy. N.B.: do not include such boats, operating as light boats, in the count of "Auxiliary boats onboard". Describe operations in trip report.
<b>NET SKIFF ENGINE MAKE / POWER</b>	Brand of engine used in net skiff and the power (horsepower - hp). Get this from the skiff driver. E.g.: Caterpillar 3408 (400hp)
<b>VESSEL CRUISING SPEED</b>	Ask the captain for the cruising speed of the vessel (not top speed).
<b>HELICOPTER MAKE/MODI REGISTRATION NO.</b>	Brand name and model of the helicopter. Ask the pilot if you need to. Registration No. of helicopter. Written on side or pontoons or ask pilot.
<b>EFFECTIVE RANGE</b>	Distance helicopter can go and return safely, without running out of fuel.
<b>COLOUR of HELIC</b>	Main colour or colours of the helicopter
<b>FISHING GEAR</b>	
<b>POWER BLOCK - Make - Model</b>	Brand of main power block on the vessel. The model of the block. <span style="float: right;">If these cannot be seen, ask the captain, engineer or winch driver. Only fill in this information if sure it is correct.</span>
<b>PURSE WINCH (Make, Model)</b>	Brand of main purse winch on the vessel. The model of the winch. <span style="float: right;">If unsure, record the information in your written report only, with a note.</span>
<b>MAX. NET DEPTH</b>	Deepest depth of the net wall when it has been set. <span style="float: right;">M = Metres; Y = Yards; F = Fathoms.</span>
<b>MAX. NET LENGT</b>	The length of the net when it has been set. <span style="float: right;">Make sure you circle the correct unit used on the vessel for net measurements.</span>
<b>NET - No OF STRIPS</b>	Each net is made up of strips of netting sewn together to create the depth of the net (e.g.: if the depth of net is to be 300 metres then 30 strips of 10 metre wide net are required to make the net depth) (adding strips deepens the net, removing strips makes it shallower). How many of these strips make up the net? Ask the deck boss or engineer for this information.
<b>NET MESH SIZE OF MAIN SECTION</b>	The mesh is a different size in different parts of the net. Record the mesh size of the main body of the net. Make sure the units are recorded in "CM" (centimetres) or "IN" (inches). Ask the Deck Boss.
<b>BRAIL: TYPE, CAPACITY, LIVE FISH BRAIL</b>	Starting with Brail 1 (the brail with the largest capacity), use the new <b>brail type codes</b> to indicate what type of brail it was (see notes and drawing at the start of the workbook - 'Changes to PS workbook'). Then record the <b>capacity of the brail in metric tonnes</b> . This will help estimate the total catch. Remember to identify the same brail (brail 1) in the same way (brail 1) on the PS-4 form. If there is a second type of brail record the information for Brail 2. If the vessel intentionally brails live fish onboard with any of the brails and processes these tuna differently mark Yes.
<b>Brail change comments</b>	Record any changes to <b>brail capacity</b> (new panel inserted etc) by recording a new brail number (i.e. Brail 2 or Brail 3) and then recording all the brail details and specifying the type, new capacity and whether the brail is used for live fish brailing. <b>Provide brief comments</b> on the brail change (like date, reason etc) in this data field.
<b>ELECTRONICS-YES / NO</b>	If vessel has a device, circle "Y"(yes); if it does not have the device circle "N" (no). You must circle "Y" or "N" for every device listed.
<b>USAGE</b>	use codes (bottom front of form) to show how much each piece of equipment, for which "Y" is circled, is used.
<b>NEW TECH :</b>	Only record new types of equip. or major upgrades to technology here. Not to be used to record old or unlisted equip. i.e. radio. Give a full description of any new equipment or new capability (through upgrades technology) in the journal etc.
<b>AIS</b>	Automatic Identification System: Transponding unit that will be attached to VHF Antenna, but maybe located inside.
<b>MAKE AND MODEL</b>	Name of company and model (name or number) of each device listed. Don't mix up make and model. E.g.: for a "JRC, JMA - 7790": "JRC" is the brand (make); "JMA - 7790" is the model.
<b>VMS System: INFORMATION SERVICES</b>	Record the manufacturer's name (e.g.: Trimble, Thrane and Thrane, Furuno, etc.) and the model of the MTU unit. Vessels may access "Fishery information services" to get instant information on oceanographic features.

## OBSERVATIONS / COMMENTS, OTHER GEAR, UNUSUAL USE of GEAR

Make notes if there is anything special about this boat compared to others. Comment if equipment is not working, not used or used in unusual way.  
Describe fishing gear if different to equipment you see on other purse seiners and record make, model, special characteristics and usage of new gear.
